5. Comment. All troop trains probably carried components of the 8th Gds Mech Div.

25X1

On 6 August 1954, three troop trains of the 21st Gds Mech Regt of this division were loaded at the Grimma railroad station and left toward Leipzig. At least two of these trains went to the Weisswasser troop training grounds rather than to Koenigsbrueck. Elements of the 350th How Arty Regt of the same division from Eilenburg also moved to Weisswasser. Since the summer of 1953, the Weisswasser area has been used for training by KVP units. It cannot definitely be determined whether Soviet troops held joint field exercises with KVP units, or if the Soviets were trained separately.
